## How courses are graded

- 📌 **This article is about the new JUNO learning management system (LMS).** If you don't see these features on your site, your platform still uses the [legacy JUNO courses](#).

If a course is graded, you can pass or fail and earn course credits. This article explains how grading works.

### Earn points for questions

You earn points when you answer questions correctly. An incorrect answer is worth nothing. Each question might be worth a different number of points, depending on how the course was set up.

[Learn more about taking courses and answering questions.](#)

### How grades are calculated

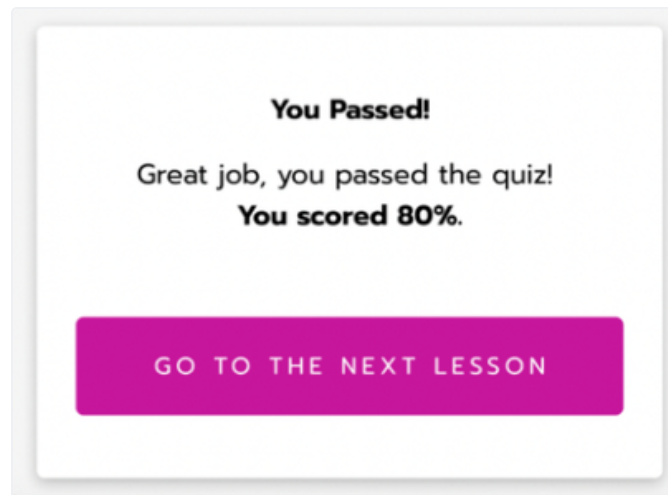

Grades are calculated for each lesson within a course. (Some lessons might not be graded.) Then those grades are averaged to determine your grade for the whole course.

### Getting grades for each lesson

A lesson grade is calculated like this: **Sum of points earned / Total points possible = %**. To pass, your grade must meet or exceed the set passing percentage.

When you select **Next Lesson** to complete the lesson, a pop-up lets you know if you passed or failed and what your grade is. If you fail a lesson, you still go on to the next one.

You'll know your lesson grade when you complete the lesson.

### Getting your total course grade and course credits

The total course grade is calculated by **averaging all lesson grades**. To pass, your grade must meet or exceed the set passing percentage.

When you select **Complete Course** at the end, a pop-up lets you know if you passed or failed and what your grade is. If you pass, you earn full course credit points, which are added to your [transcript](#).

The screenshot shows a course completion interface. At the top left, there is a purple arrow pointing left with the text "Back to Courses". Below this is the course title "Intro to Tablet Weaving" in bold black text. The main content area features a dark blue background with a white central box containing the following text: "You Passed!", "Great job, you passed the course!", and "You scored 80%". Below this text is a large purple button with the text "RETURN TO COURSES". To the right of the central box, there is a faint illustration of a satellite or space station. At the bottom right of the main content area, there is a purple button with the text "COMPLETE COURSE" and a small icon of a person. A black mouse cursor is pointing at this button. Below the main content area, there is a line of placeholder text: "Course body lorem ipsum dolor sit amet, consectetur adipiscing elit. Quisque odio orci, venenatis in ar vitae, scelerisque faucibus eros. Nunc sagittis odio at tortor interdum blandit. Nulla porta ullamcorper iaculi. Ut lobortis massa sed elementum maximus. Etiam convallis, insum venenatis malesuada lacinia, elit insum".

You'll know if you passed or failed when you complete the course.

## Lesson retakes

Lesson retakes provide you with the opportunity to redo a lesson that you have already completed. Depending on how each course is set up, you might be able to retake one or more lessons within it.

### Prompt to retake a lesson

All lessons with retakes available will show on the course's homepage after at least one attempt.

## Learning with Drones

Course Passed

See how many Retakes you have left on the lesson tile of the course home page

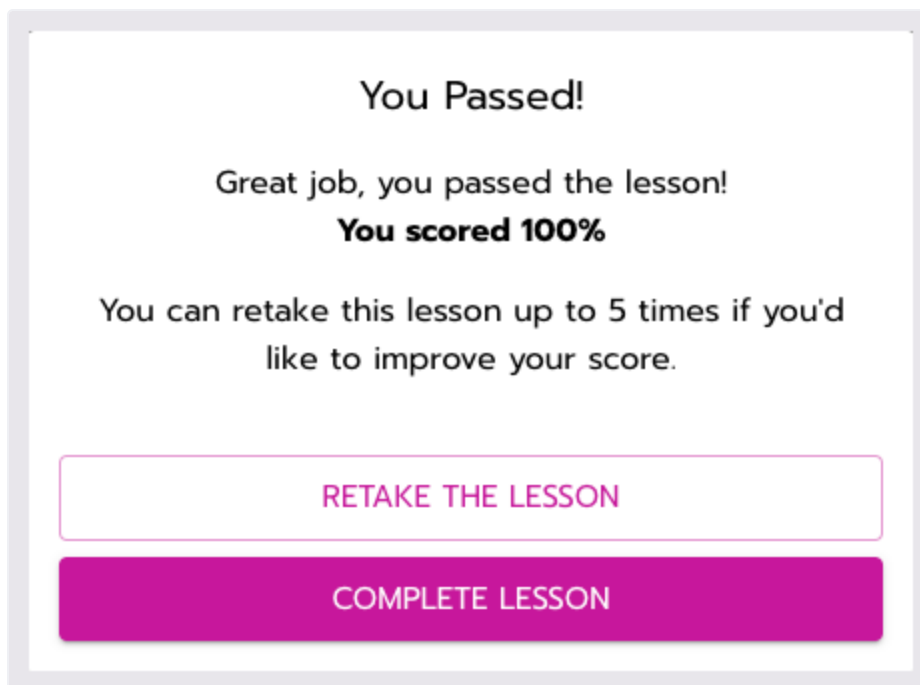

1. Lesson 1  
Learning with drones lesson 1

4 retakes available ✓

The amount of retakes left is shown on the individual lesson tile on the course's home page.

**Graded lessons** with retakes will also prompt you at the completion of the lesson with your score and the ability to retake the lesson. In these cases, you can select **Retake Lesson** or **Complete Lesson** to move forward.

**Ungraded lessons** with retakes will not receive this prompt as your score is not considered for passing or failing on ungraded lessons.

You Passed! Retake prompt.

### Retaking a lesson

if you select **Retake Lesson**, the lesson will be reset to its original state. This action erases any previous answers and scores you obtained, giving you a fresh start.

During a retake, you can answer the questions again and rewatch any videos in the lesson as if you were approaching it for the first time.

- i Example: you had initially scored 96% in a lesson and aim to retake it to achieve a perfect score of 100%. However, you only manage to score 90% in the retake, your new score will be 90%, as the previous answers and scores have been erased.

### Additional features and prompts for retakes

You can also continue the course if you decide not to retake a lesson immediately. Should you need to retake the lesson later, you will find the number of retakes available on the **lesson tile** on the course homepage.

To retake the lesson from the course's homepage, reenter it and select the **Retake** button located at the top of the lesson page.

The screenshot shows a lesson page for 'Learning with Drones' (Lesson 1 of 1) with a 100% completion status. A callout box with a blue background and white text says: 'Use the Retake button at the top of the Lesson Page to retake a lesson with retakes available'. An arrow points from this box to a pink 'RETAKE' button located at the top right of the lesson content area. The main content area features a large blue graphic with 'AI' in the center and a paragraph of introductory text.

RETAKE

Welcome to the exciting world of learning with drones! In this captivating lesson, we will embark on a journey combining technology, innovation, and education. Drones, unmanned aerial vehicles, have revolutionized various industries, and now it's time to explore their potential in the realm of learning. Prepare to witness the fusion of hands-on experience, creativity, and problem-solving as we delve into the applications, mechanics, and principles behind these remarkable flying machines. From understanding the intricate components that make up a drone to mastering the art of piloting, this lesson will empower you to unlock a new perspective on the

The Retake button is inside the Lesson page.

- ⚠ After retaking the lesson, you must select the **Complete Lesson** and **Complete Course** buttons to submit your new answers.
