# Happening now

The **Basic Analytics** page has three tabs: **Happening Now**, **Examine Your Data**, and **User Activity Exporter**, each tailored to offer distinct advantages for administrators. This guide will walk you through the **Happening Now** tab. A powerful tool that offers immediate insights into user activity on your platform, giving you the confidence to make decisions that enhance your platform's performance and user satisfaction. Learn more about using the Examine Your Data tab. Learn more about using the User Activity Exporter tab.

**Locating the happening now tab**

v2 Site admin

locate and select the **Analytics** section from the Site Admin Dashboard under **Utilities.**

Locating the Analytics section from the Site Admin dashboard under Utilities in v2.

v1 more navigation menu

Access the Happening Now tab by navigating to the Basic Analytics section of your site through the left-side **More** navigation menu.
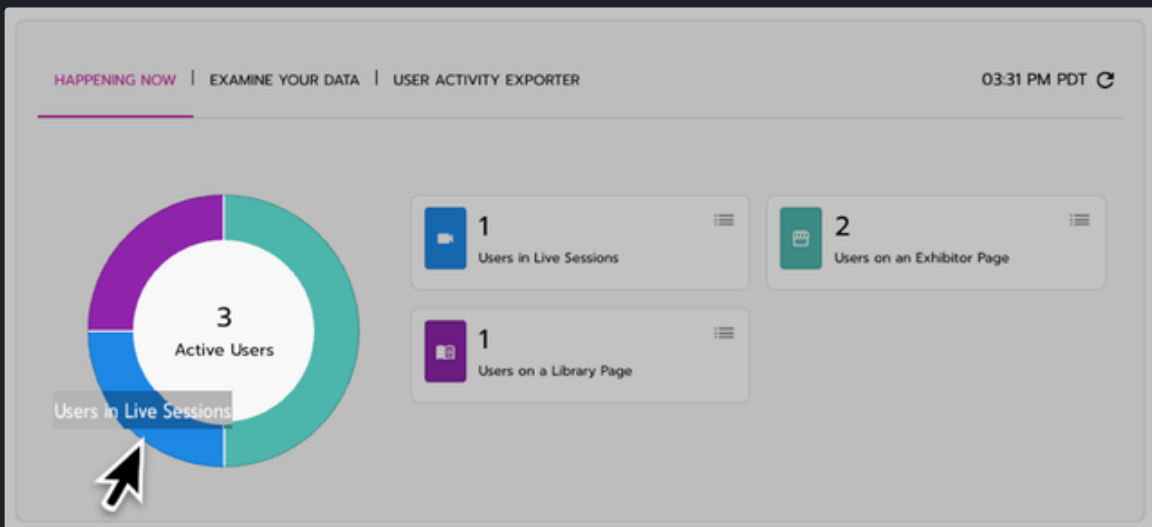

Accessing the Happening Now tab from the left-side navigation in v1.

Active users pie chart

The **Active Users** pie chart represents **registered users currently logged in**.

- The chart displays the total sum of all the individual Happening Now widgets' visible data.
- The chart visually breaks down the total sum, providing insights into different content types.
- You can configure the content type breakdown, potentially tying it to existing widget visibility on Examine Your Data (to configure your site's widgets, please contact your CSM).

Dashboard refresh

The manual refresh button lets you update the Happening Now dashboard widgets to display the most current data, ensuring you can always access the latest insights.

1. Select the **refresh** button to update the data.

- When selected, a visible indication will inform you that new data is being updated.
- Once the data update is complete, a **timestamp** will reflect the time accuracy of the displayed data.

Selecting the Refresh button on the Happening Now tab.

Explore active user statistics through interactive widgets

- Choose a widget from the Happening Now analytics tab that you want to explore in more detail.
- A pop-up will appear upon selection, presenting a list view breakdown of the primary statistics associated with that widget.

1. Each list item displays the active users interacting with the specific content and includes the content title (e.g., session name).
2. Each item in the list view represents specific content on your site. Selecting an item will redirect you to the corresponding content page for further exploration.
3. Each description window has an **X** option, allowing you to close it when you're done.
