## Earn Badges

Earn badges by taking action around the site.

### Before you begin

Badges may or may not be available, depending on how your organization sets up the platform.

## About badges

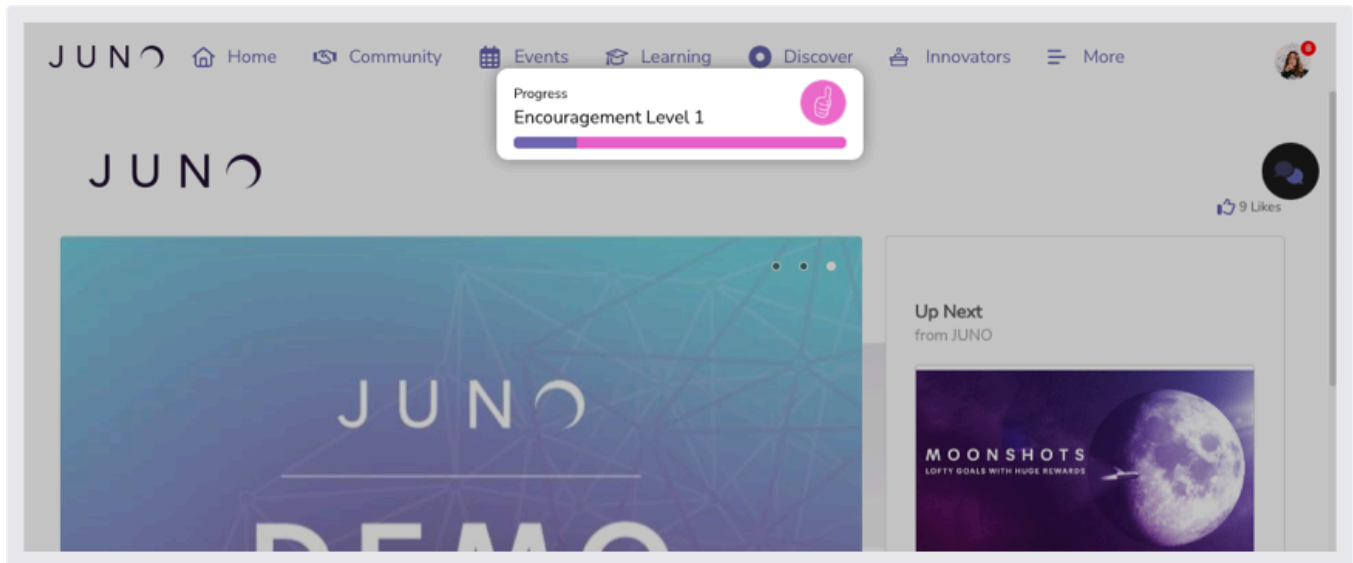

Badges are rewards for your participation around the site. They are personal; There is no competition with other people and no one can see your badges.

Each badge is connected to one or more specific actions, such as liking a page or attending a session. Each time you do the action you earn progress toward the badge.

## Earn badges

You can spontaneously earn badges just by participating around the site. You'll know because a progress bar appears at the top of the page when you do the right action. For example, in the image below, you earned progress by liking an exhibitor's page. To earn the badge, you should like more pages.
