GrowthZone Help Center

General settings

This guide is designed to assist clients and administrators in efficiently navigating to and setting up the specific features for their site's branding and theme presets.

Brand Assets | Theme

Brand Assets

Click on or drag an image to either image container below.

Logo
Your logo will be displayed in the top left side of the header. If it appears too small or large, try cropping the image first.

Favicon
The favicon displays on the browser tab and is usually a small square image.

Theme

Choose your site's font and theme colors.

Font
Select the font for text that appears on the site

Theme Font
Prompt

Primary color
Affects buttons, highlighted menu items, loading spinners, other accents and is available to use while building pages or library content

Secondary color
Available to use while building pages or library content

Accent color
Available to use while building pages or library content

Save

Updating the Brand Assets and Theme in the Site Admin General Settings section.

Brand Assets

Name	Result / Use Case	Options	Default YES | NO	Directions / Examples
